

# TRAINING FOR COURAGE

## A Clinic with Paul Dufresne

Using ground play and games to develop your leadership while improving the partnership between you and your horse.

Learn natural horsemanship and operant conditioning techniques to resolve respect and behavioral issues (e.g., biting, kicking, bolting, trailering, tying) and promote a willing and attentive attitude.

Train for human and equine courage (relaxation cues, spook proofing, trail safety).

Generate lightness, impulsion and yielding to pressure.

Take your horse and your equine experience to a new level with Circensic Dressage (tricks and Classical Dressage) High School and Spanish Reining.

## February 23 and 24, 2008
